EXPERIENCE

JUNIOR FRONTEND DEVELOPER – Waters Corporation

DECEMBER 2023 - PRESENT

- Develop new user stories, fix bugs, create and review pull requests in multiple Angular projects, such as the Alliance iS HPLC System Kiosk, Console, and Method Editor apps, to meet specific team goals.
- Collaborate closely with UI/UX designers and backend developers to implement and integrate new features. Actively participate in Agile ceremonies, including daily stand-ups, sprint planning, and tech reviews.
- Troubleshoot, identify, and resolve performance bottlenecks and bugs, ensuring exceptional application performance and user experience.

SOFTWARE AUTOMATION INTERN – Waters Corporation

DECEMBER 2022 - DECEMBER 2023

- Developed BDD tests, fixed bugs, and refactored a critical part of the logging mechanism in a Python-based internal testing tool.
- Documented work clearly through code comments, README, and Confluence, while communicating progress effectively to the team.

WEB DEVELOPMENT APPRENTICESHIP – Endava

AUGUST 2022 - NOVEMBER 2023

- Successfully completed all assigned tasks utilizing HTML, CSS, JavaScript, React, Azure Cloud and GitHub Actions.
- Built a photo management app with React, focusing on frontend performance and CRUD operations.
- Played a key role as the main DevOps engineer in the development of a Recipe Keeper app, managing the deployment of frontend and backend components, along with setting up CI/CD pipelines.

PEPINTEEN EDUCATIONAL PROJECT – Școala de Valori & ING Hubs Romania

OCTOBER 2018 - JUNE 2020

- Developed hard and soft skills necessary for a career in web development through individual tasks, team activities, and collaborative web projects.
- Led my team to second place out of nine in an internal contest by building and presenting a browser game in JavaScript.
